Secondary Education — 85.5% | 2018
Central Board of Secondary Education

EXPERIENCE

RATNASHIL ONLINE SERVICES PVT LTD

Frontend Web Developer Intern → Full-time | Jan 2025 – Present

- Contributed to a production-grade eCommerce platform by building and refining responsive UI components using HTML, CSS, JavaScript, and TailwindCSS.
- Collaborated closely with designers and backend developers to implement pixel-perfect, user-centric web pages aligned with business goals.
- Applied modern workflows including Git-based version control, while actively contributing to live features deployed on the production site.

SKILLS

Languages: HTML, CSS, JavaScript, TypeScript, Java
Frameworks & Libraries: React, TailwindCSS, Material UI, styled-components
Tools: VS Code, IntelliJ IDEA, Git, MS Office , REST APIs

PROJECTS

PIKPART & MYSMARTGARAGE PLATFORM DEVELOPMENT

TypeScript, React, styled-components, Material UI, HTML, CSS

Redesigned and enhanced two automotive platforms:

- **pikpart.com**: Contributed to a production-grade spare parts eCommerce website with improved performance and component structure.
- **pikpartsmartgarage.com**: Overhauled the service booking and product browsing interface; built a spare parts catalogue system to improve part discoverability.
- Used styled-components and Material UI to create reusable UI components aligned with modern frontend standards.

COLOR GUESS GAME

HTML, CSS, JavaScript

A simple game that tests the user's ability to match colors based on RGB values. Demonstrates interactivity and use of core web development skills.
